

OUR PORTFOLIO

 powerone  
ELECTRICAL

# Company Profile

We have built our reputation based on quality and integrity which allows us to be your “one-stop shop” for all electrical, data and communication requirements with the most cost-effective outcome.

Power One Electrical brings to you the core values of honesty, partnership, respect, professionalism and innovation to ensure all your electrical, data and communications project requirements are exceeded beyond expectations.

Working across a broad range of sectors and building types, all sizes and complexity, Power One Electrical combine a rich and exciting blend of creativity, commercial capability and contemporary management style to provide a successful all-inclusive service. Established in 2017 with amalgamation of Electricom pty ltd and Powertel pty ltd, Power One Electrical provide a sustainable, responsible, ethical business practice that is entirely client focused.

On all projects, we implement the highest workplace health & safety standards and environmental standards, actively maintain industrial harmony, embrace new ideas and recommend effective business driven solutions.

Power One Electrical is a modern and dynamic team that has set a benchmark as a leading electrical company which offers high-quality services for all-sizes of projects. We pride ourselves on being licensed in each trade and stringent on WHS practices. We have developed in house processes which meets Australian standards.

A REPUTATION BUILT ON QUALITY & INTEGRITY

# Power One Electrical is Your 'One-Stop Shop'

We're focused, work hard, plan smartly, reduce risk, price sensibly, communicate well, perform to our best and are respectful of others. We have earned an envied reputation for trustworthiness, reliability, collaboration, innovation, safety and quality.

Our clients are our best marketers. Repeat business, referrals and references have underpinned our continued growth within the industry. Delivering consistently, with personal attention and a rare humility, we will always deliver for our clients.

No job is too big or small for us, we encompass all electrical solutions. Our broad range of projects range from residential domestic electrical to high end retail/industrial fit outs that span the residential, commercial and industrial sectors. We cater for all!

We work alongside all trades from builders, engineers, and architects, so that all work is effortless with only the best quality level and seamless execution. Our quality speaks for itself and the clientele we cater to is a great reflection of our great.

We take pride in our work and we're passionate about finding the best solution for all your electrical needs. Quality time is spent during the initial stages with you to ensure we scope out the work thoroughly, and provide options for every detail in mind.

Whether you want a safety check on your home or business, an alarm system installed, or any commercial or industrial maintenance we have you covered. Our team of licensed electricians are all fully qualified and we uphold all industry standards.
